HOW TO EMBED VIDEOS WITHIN AN OPENLABYRINTH SCENARIO

This tutorial gives you step by step instructions on how to embed videos onto an OpenLabyrinth scenario from Panopto however the same instructions apply when embedding other videos where a embeddable code is available (such as in YouTube).

1. Log onto OpenLabyrinth and select the scenario/case you wish to upload the video and click 'Edit'.

4. Now go back to OpenLabyrinth, and from the list of nodes, choose the node that you want to upload the video. Click the 'Edit' button next to the title of chosen node, and then scroll to the 'Node content' box. Here in this tutorial, I have selected the node 'Handwashing video'.

6. There are two tabs such as 'General' and 'Embed'. Click the 'Embed' tab here. Paste the code using the keyboard keys (Ctrl/Cmd + V), or right-click and select 'Paste' from the list. This will paste the code you have copied from Panopto. Click 'Ok' and this will save the code and close the pop-up box.

Edit "Hand Hygiene"	d washing video" in Labyr	inth "Health and
Node Content	Insert/edit video	×
Title Node Content	General Embed Paste your embed code below: - <iframe autoplay"="" src="https://sgul.cloud.panopto.eu/Panopto/Pages</td> - /Embed.aspx?id=a5571d8d-e45a-4135-9cc0-ac1c00aa8981& - autoplay=false&offerviewer=true&showtite=true&showbrand=false& - start=0&interactivity=all* height=*405* width=*720* style=*border: 1p; solid #464646;* allowfullscreen allow="></iframe>	E E E E E E E T E T E
	Ok Cance	wice (around 20 seconds)

7. You will be able to see that now a placeholder has been placed in the 'Node content' box however you will not see the video itself.

8. To change dimensions, click on the placeholder and then click 'Insert' and 'Insert video' (same as in step 6). Enter the required width & height for the video in the 'General' tab and click 'Ok'. In this tutorial, I have updated the dimensions to 500 X 405 in order to be proportionate with the text on the page.

9. Scroll down to the end of the Node edit page and click 'Save changes'.

Node Settings	
Exit Node Probability	On Off
Node Conditional	Edit
Link Function Style	buttons -
Node Priorities	 normal (default) must avoid must visit
Prevent Revisit	 Enabled Disabled
Link to end and report from this node	Off (default) On
	Save changes

10. Play your scenario to ensure the video was inserted correctly. To do this, click on the updated node/page title in the node list and you will be able to see the node as a player of the scenario. Here you can test the video has been inserted and embedded from Panopto correctly.
